#### Procedure for Applying Time Limits

1. Start of Play – an Official signal (bell, horn, etc.) shall be sounded to signal the scheduled starting time for each game. Any player arriving at the green more than twenty minutes after the official signal has been sounded shall cause that team to forfeit such game to the opposition
2. End of Play – At the completion of the allocated time, the appointed official will signal the end time of play by a bell, horn, etc. At this time, players will complete the current end they are playing. (The start of an end is determined by the delivery of the jack by the first player in that end)
3. Time limits will be imposed during all rounds of play
4. An informal shot clock or 1 minute to deliver a bowl will be used in qualifying rounds where we ask all players to use the honour system and keep their play moving. Time can be taken by a skip if there is a complex head. Each team will have a maximum of 3 time calls a match

#### Deliberate Delay of Play

1. Players are required to play without undue delay and in a manner which does not prevent their opponents from being able to complete the requisite number of ends within the prescribed time limit. If an appeal is made by a Skip, a Singles player that their team or player is being prevented from playing all their bowls within the time decided for the game, the Official will warn the offending team, in the presence of the Skip, that they are deliberately delaying play. Deliberate delay of play may include a player leaving the green multiple times, delaying the delivery of a player's bowl, or the Skip acting or issuing instructions designed to delay play
2. If, in the opinion of the Official, as a result of their own observation or on appeal by one of the Skips or a Singles player, the team or player has committed the same offence again, further action may be taken in consultation with the Drawmaster/Official (or designate), such as the following:
  - a. If a player is leaving the green more than once, on each occasion after the first, they can leave the green only with their opponent's and the Umpire's permission
  - b. If a player is leaving the green to smoke, this will not be permitted for the remainder of the game
  - c. The end in progress will be regarded as completed and the opponents of the offender will be awarded as many shots as there are bowls in use for the game (for example, in the case of pairs, this would be eight shots)
  - d. If, during the end which is in progress immediately before the end time of play is signalled or on completion of that end and before the start of any subsequent end, it has been determined that a team or player is being prevented from playing a further end due to the actions of their opponents, they will notify the teams that they must play one more end, even though the end time of play may have been signalled when such notification is given

- e. The offending team may be put on the stopwatch on completion of any end in progress. The offending team will be required to deliver all their bowls in each of the remaining ends within a time period specified by the Umpire. Timing will be undertaken by a technical official specifically allocated for that purpose
  - f. The offending team may be put on the stopwatch from the start of their succeeding game
3. Any stoppage of play due to time spent in discussion with the offending team or player in regard to the application of these conditions will be added to the time limit of the game

#### Weather Delay Policy

The Club and/or Officials are responsible for monitoring weather conditions, including electrical storms, hot weather and air quality.

1. Electrical storms
  - a. At the first sound of thunder or observation of lightning, play shall be suspended immediately, and all participants shall be ordered off the greens to find appropriate shelter. Play will not resume until at least 30 minutes have passed since the last sight of lightning or the sound of thunder
2. Hot weather
  - a. When the temperature reaches 35C, the Official should interrupt play at 20-minute intervals for a period of five minutes so that players may cool down and take on fluids. When the temperature reaches 38C, play is to be suspended
3. Air quality
  - a. When air quality may be an issue, the Drawmaster will check the Alberta Air Quality Health Index (AQHI) for the location prior to the start of a match. The Drawmaster will communicate any decisions at the skips briefing prior to play
  - b. Reference: Alberta's guideline:  
[https://weather.gc.ca/airquality/pages/provincial\\_summary/ab\\_e.html](https://weather.gc.ca/airquality/pages/provincial_summary/ab_e.html)
    - i. AQHI levels 4 to 6
      - If any player experiences symptoms due to poor air quality, play for their specific game may be stopped for 20 minutes
      - After the first 10 minutes, the symptomatic player will be assessed to see if they are able to continue playing
        - a. If they are able to continue playing, play will recommence after the 20-minute break
        - b. If they are not able to continue playing, a substitute will be permitted
        - c. If there is no substitute available, and the symptomatic player remains unable to play after the 20-minute break, the game will be forfeited by the defaulting team
    - ii. AQHI level 7
      - All play/competition will be suspended for at least 1 hour, during which time players will be encouraged to rest and/or find shelter indoors, provided that the shelter has better air quality than outdoors

- It will be at the discretion of the Hosting Committee to determine when to resume play. Factors to consider in addition to the AQHI level include near-term forecast of air quality, ambient temperature, humidity and the number of at-risk participants in the event

\*\* Substitutions will only be permitted with players who had not competed or are competing in the respective Canadian Bowler Open event

In all instances where play is stopped or suspended, any end that has commenced must be completed before the stoppage takes effect, unless stopped by the Official or Drawmaster mid-end.

2. Any refund requested after August 1<sup>st</sup>, 2024, will be returned for 50% of the registration fee
